Healthcare Information For All

Working together towards the HIFA Vision: A world where every person and every health worker will have access to the healthcare information they need to protect their own health and the health of others.

Every member of the HIFA forum has a ‘personal profile’, which is added to the end of each message they send to the group. In addition, some members have given specific permission for their profile to be included in this public HIFA Members Directory.

The HIFA Members Directory is intended to facilitate direct one-to-one contacts between members. The Directory is publicly available on the Publications page of the HIFA website: www.hifa.org/about-hifa/publications

Disclaimer: Please note that the moderators of HIFA are unable to verify the accuracy of information provided by members.

To add, remove, or change your profile, please send an email to: admin@hifa.org

Syed M M Aarif is a Final Year MBBS Student at Rural Medical College, Pravara Institute of Medical Sciences, Maharashtra, India. Professional interests include Surgery, Internal Medicine, International Health and Psychiatry. smmaarif AT yahoo.com

Marie Abanga is the Country Director for the Gbm Foundation for Epilepsy and Mental Wellbeing in Cameroon. Professional interests: I am interested in my role as the Country Director of the Gbm Foundation for Epilepsy and Mental Wellbeing, in seminars, workshops, conferences and even webinars on the best practices on championing the causes of our Foundation. Cameroon currently according to a recent Lancet Neurology Report, have the highest rate of prevalence of Epilepsy in the world. Statistics barely abound on the mental health situation in the country, yet several mentally ill walk our streets and paralyze communities. Joining HIFA is simply put an awesome opportunity in our campaigns to 'Bring Epilepsy Out Of The Shadows', and also to get stakeholders to 'Dare To Talk About' Epilepsy and Mental Illness. marieabanga AT gmail.com

Suhel Abbas is a medical student at the Rabindra Nath Tagore Medical College in India. Professional interests: cardiology and applied research. sabbassabunwala90 AT gmail.com

Abdirashid Hashi Abdi is HIV GFATM (Global Fund) Coordinator with UNICEF in Somalia. He is a medical doctor and is interested in issues addressing HIV/AIDS, Child health and healthcare systems. He is stationed at Hargeisa, Somalia. He has nearly 10 years in clinical practice and healthcare management. Somalia has one of the highest mortality indicators in children and mothers. Interventions that showed high success in other parts of the world can be implemented here if we choose proper delivery strategies in terms of feasibility, cultural context and availability of required resources. Absence of fully functioning government made our situation worse and need of particular attention. He is a HIFA Country Representative. drabdirashid AT gmail.com

Zabron Abel works on eLearning and Marketing at the Tanzanian Training Centre for International Health, Tanzania. Professional interests: -eHealth -eLearning and ICT. zabron76 AT gmail.com

Wilfred Abia is CEO for a non-profit, non-political non-governmental community health-based organisation called Integrated Health for All Foundation (IHAFCam), with headquarters in Yaounde, Cameroon (www.ihafcam.org). abiwilfred@yahoo.com

Oyeleye Abiodun has a passion and vision for development of the community and society at large. He established a non-governmental, non-profit making organisation, called New Initiative for Social Development (NISD) as an avenue to bring development to the people. He is the Executive Director. New Initiative for Social Development (NISD) is a Nigeria based Non-Governmental Organization. The mission of the organization is to establish an avenue through which positive impact towards social and economic development of the society can be made by networking with government, private sectors and donor agencies in Nigeria and abroad. The objective is to provide relevant interventions through information, training, research, advocacy and capacity building for the purpose of promoting an effective implementation of developmental initiatives that will enhance socio-economic development.
Mittal Abhishek is a medical student and young researcher at the Saifdarjung Hospital, New Delhi, India. He has worked as Google Campus Health Ambassador for Google Health Speak Project in association with Wikipedia which was aimed at making health knowledge accessible to all irrespective of their language. He is a HIFA Country Representative for India. mittal.abhishek16 AT gmail.com

Funmi Abokede works with the Women and Development Movement, Nigeria. Her interests include improving child health care and support of orphans and vulnerable children. wadem_temi AT yahoo.co.uk

Timothy Shola Abolarinwa is Deputy Director (Library Services), Nigerian Institute of Medical Research, Yaba, Lagos. timshola AT yahoo.com

adepojupaul AT gmail.com

Kunle Adesokan is a Consultant Psychiatrist with a bias for community psychiatry and rehabilitation issues with respect to mentally ill people. Kunle currently practices in a federal tertiary centre in South west Nigeria. kunlekay005 AT yahoo.co.uk

Adebusuyi Adeyemi is Chair of the Young Fabians Health Network, London, UK. The Young Fabians are the under-31’s section of the Fabian Society, Britain's oldest political think tank. Set up in 1960, the Young Fabians remain the only think tank run by and for young people. Membership includes young professionals, students, parliamentary researchers, political activists and academics. All the young MPs elected at the 1997 and 2001 elections were Young Fabians and, during those parliaments, there were more Fabian MPs than Tory MPs. Every Labour Prime Minister, from Ramsay MacDonald to Gordon Brown, has been a member of the Society. Today, well over 200 parliamentarians are members and the Fabian Society continues to be at the heart of progressive thought.
The Young Fabians develop policy ideas through seminars, conferences and pamphlets. We produce a quarterly magazine, Anticipations, and organise regular political and social events. We seek to encourage debate and political education amongst our members and within organisations around the world and Africa. Adebusuyi has been Chair and leads the development and engagement of health policies. He has been working for a multinational private consulting firm but is currently on sabbatical at the London Mayor's office while he contemplates his next move. He is also currently studying part-time at HULT International Business School (#4 International Business School, FT). Ade's interests are in Healthcare Management, Public Health, Health Policy, Strategy and International Development.
AdebusuyiAdeyemi AT Gmail.com Adebusuyi.Adeyemi AT or london.gov.uk

He is currently back at Minnesota as a Fellow at the Interdisciplinary Centre for the Study of Global Change (ICGC) and working on a PhD in Health Services Research Policy and Management. amuas001 AT umn.edu

**Joseph Ana** is the Lead Consultant and Trainer at the Africa Centre for Clinical Governance Research and Patient Safety in Calabar, Nigeria. In 2015 he won the NMA Award of Excellence for establishing 12-Pillar Clinical Governance, Quality and Safety initiative in Nigeria. He has been the pioneer Chairman of the Nigerian Medical Association (NMA) National Committee on Clinical Governance and Research since 2012. He is also Chairman of the Quality & Performance subcommittee of the Technical Working Group for the implementation of the Nigeria Health Act. He is a pioneer Trustee-Director of the NMF (Nigerian Medical Forum) which took the BMJ to West Africa in 1995. He is particularly interested in strengthening health systems for quality and safety in LMICs. He has written five books on the 12-Pillar Clinical Governance for LMICs, including a TOOLS for Implementation. He established the Department of Clinical Governance, Servicom & e-health in the Cross River State Ministry of Health, Nigeria in 2007. Website: www.hriwestafrica.com Joseph is a member of the HIFA Steering Group: http://www.hifa.org/people/steering-group jneana AT yahoo.co.uk

**Joanna Anderson** is Administrative Assistant to Andrew W Smith at the International Centre for Eye Health, London School of Hygiene and Tropical Medicine, UK. One of her tasks is to set up an online networking group for students who have undertaken a short course on Public Health Planning for Hearing Impairment. The course has been running for a few years and takes place annually in London and Hyderabad. Students are from all over the world and tend to be from NGOs, the medical or public health professions. Many of them will be working in the developing world. joanna.anderson AT lshtm.ac.uk

**Simon Andriesen** is member of the Board of Directors of Translators without Borders, and is managing the TWB Swahili Health Translation Center in Nairobi, Kenya. He is CEO of Medilingua, a company that provides professional medical translation services for the pharmaceutical and medical device sectors. simon AT translatorswithoutborders.org

**Georgina Angel** is a Health Co-ordinator working at Phunzira in Malawi. Professional interests: I trained as a medical doctor in the UK and have recently started making the transition from clinical medicine to public health. My interest in global health has led me to working in Sub-Saharan Africa for the last 3 years both as a field doctor and health advocate. I have worked mainly in a rural setting in poorly staffed and under-resourced centres. My particular fields of interest are infectious diseases including HIV and TB and maternal and child health. I believe in population based prevention programmes that focus on community empowerment and education in order to improve health. georgina AT phunzira.org
Michael Anguria is Executive Director, Human Rights Defender and Health Coach/Mentor at the Shine Africa Foundation-Teso, SAF-Teso, in Uganda. He is also a trained Human Rights Defender and a Sub-County Chief working with Government. Professional interests: Health Conferences, Workshops, Volunteering opportunities, Volunteering Exchange, Partnership, funding, scholarships.

Sylvie Donna is researching safety in maternity and newborn Health with a view to producing a useful manual for countries where the infrastructure or financing of health services is not yet sufficiently well-developed to mean that full, effective expertise and care are available for all women, men and children. The manual will be produced in collaboration with various key figures in the field of midwifery and obstetrics, many of whom have already agreed to participate as contributors, readers, reviewers or editors. Any interested parties on the DGroups mailing list who would like to support this project in some way can contact Sylvie either by responding directly to this email or by clicking on ‘Contact us’ on the Fresh Heart website. Sylvie also the author of two other books on birth, one for pregnant women and another for midwives working in the UK. (Fresh Heart Publishing was set up in order to publish these and other health-related titles which focus on ‘new beginnings’. Other authors are currently being commissioned to write books in the near future and the first two of these – about sight impairment – are due to be published in a few weeks’ time.) Both of the initial books on birth are now almost sold out and new editions (with new titles) are now in preparation, along with an American edition. These and the more international project are non-profitmaking as yet and Sylvie is investigating the possibility of setting up a charity in order to develop this work further. (More information is provided on each project on an ongoing basis on the Fresh Heart website.) Sylvie’s aim is to collaborate with professionals working in the field of childbirth in order to help improve maternity and infant mortality and morbidity statistics worldwide, while also taking into account experiential factors associated with pregnancy and birth, so as to optimise the process of childbearing for everybody concerned. info AT freshheartpublishing.co.uk

Efunbo Dosekun is a Paediatrician. She recently moved back to Nigeria from England, to create a strategy for continuous professional development of doctors and nurses in the primary and secondary tier level. With a group of Health care professionals she has set up a company called Healthcare Capacity Development Co Ltd to create training programmes in Nigeria, including Paediatric Emergency Workshops for Nurses and Paediatric Emergency Workshops. edosekun4 AT yahoo.com

Suzanna Gim is an Assistant Professor/ Drug Information Specialist at Long Island University/ Brookdale Hospital, USA. Professional interests: Universal access to medications and quality healthcare, public health policy, education, research, academia, and pharmacy practice. I am very
interested in efforts to increasing and retaining human resources in developing countries through improvement of the quality of training healthworkers receive and have access to. One way I believe we can achieve this is through networking with academic institutions in developed countries and using faculty/student exchange with sustainable training of local healthworkers for longterm efforts of change. I have worked on small projects in Sierra Leone and would like to continue to expand to work in other countries and other networks with similar vision. suzannagim AT gmail.com

Myer Glickman is Head of Life Events Modernisation at the UK Office for National Statistics; National Coordinator of UK-Africa Health Partnership (www.ukahp.org) which is the UK group of the Afro-European Medical & Research Network, AEMRN (www.aemnetwork.ch); and Consultant Statistician of AEMRN. He has been a consultant to the Department of Health (England) on several information development projects, and also has a visiting position as Associate Professor in Public Health at Chreso University, Lusaka, Zambia. His professional interests include health statistics/demography/population epidemiology generally, and specifically socio-economic health inequalities, community health improvement in sub-Saharan Africa, and improvement of health information systems. myer.glickman AT yahoo.co.uk

Annabella Gloster is a Lecturer in Nursing at the School of Nursing & Midwifery, University of Salford, UK. She is currently working with Tanzania on an education project among nurses. A.S.Gloster AT salford.ac.uk

J Gnanaraj is an Urologist and Laparoscopic Surgeon trained from Christian Medical College, Vellore. He is currently the Director of Medical Services of SEESHA which is a social service wing of the Jesus Calls ministry. He has upgraded the facilities at the Karunya Rural community hospital at Karunyanagar to a center for minimally invasive surgeries and started the heath care plan and the master heath check -up and the outpatient clinic at Coimbatore. He designed C3MDS the hospital management software along with computer personnel and designed local modifications and installed it many mission and other hospitals. This is being upgraded to a web based version compliant with the requirement of the National Accreditation Board for hospitals and health care facilities in India. He has designed low cost medical equipment for use at the mission hospitals and doing research on medical equipment in Karunya University. He is the Editor of the Rural Surgery Journal of the Association of rural surgeons of India and has 45 publications in national and international Journal. He has presented papers at the conferences of Association of Surgeons of India (Calcutta, Cuttack and Madras), Urological Society of India (Bangalore & Nagarjunasagar), Association of Southern Urologist of India (Ooty & Vellore), Indian Medical Association (Trichy), Rural Surgery (Sivakasi, Ujjain, Sewagram), Association of surgeons of Assam (Silchar), International Federation of rural surgeons (Ifakara, Tanzania), WHO CME for rural surgeons (Herbertpur), International College of Surgeons conference (Trichy). He has organized many innovative diagnostic and surgical camps at interior rural places in India. jgnanaraj@gmail.com

Shane Godbolt is Director of Partnerships in Health Information. Phi is a UK-based charity contributing to improved health care in countries with few material resources. By building partnerships between health libraries, Phi supports access to reliable health information. Shane AT godbolt.co.uk

Fabio Godoi works in Research and Development at Instituto Moriah, Brazil. Professional interests: Change the health care system in low income society of emerging countries. I believe that the major problem of public health in developing countries is the relationship between the Government and a population, That is, every country has a different health structure, but in General, designed to meet the needs of the population, hospitals, health centers, preventive development and monitoring projects and "primary care"- enough investments or not, the fixed costs are being absorbed and variable costs, sometimes growing out of control- the federal Government has invested in the system, for it has no interest in social and economic development of the nation, and has delegated a physical
structure of health administration to representatives of the States and municipalities. The problem? The public health system is poorly managed, and supervised, resulting in inefficient services provided to final consumers (the population), and they stop believing in work carried out by the Government, losing a confidence in the public health system, and the low-income society ends up spending their few financial resources in a private health entity that provides comfort, safety and efficiency for their basic health needs.

Jeffrey K Griffiths is a public health academic physician who trained in internal medicine, pediatrics, and infectious diseases. His areas of expertise include the epidemiology of waterborne diseases, particularly cryptosporidiosis; of micronutrient interventions; and of diarrheal disease and pneumonia in children. He has worked with colleagues in East Africa to develop a network of educational institutions which share co-developed curricula relating to public health and environmental health. In Ecuador he has worked with colleagues on interventions for pneumonia and diarrheal disease.
prevention. At Tufts University he is a member of the faculty of Medicine, and the schools of Nutrition, Veterinary Medicine, and Engineering. He serves as the Chair of the Drinking Water Panel of the Science Advisory Board of the US Environmental Protection Agency.  jeffrey.griffiths AT tufts.edu

Mary Grimanis is Health Care Coordinator at The Akaa Project., Inc, a U.S. Based Nonprofit, and she is based in Ghana. Professional interests: I'm a pediatric nurse practitioner interested in assisting families in the Akaa region of the Yilo Krobo District of the Eastern region of Ghana improve their health, navigate resources in their district and improve access to high quality health care. To date, families rarely pursue health care since they rely on traditional medicine and spiritual care from the prophet in the community. My hope is to work alongside other NGO’s, the Ministry of Health, United Nations, WHO, other invested partnerships while encouraging participation, education and self-reliance among families in the region. The involvement of the prophet and traditional healers are essential to moving this initiative forward. So far, health care endeavors have centered around the Asiafro Amanafro Community School, built to educate children in a location where they had never attended. However, education of adolescents and adults in the area is another high priority and initiative in process at this time. The Akaa Project is eager to unite with the academic, health care, and business sectors globally to make a difference in the lives of families in this resource limited setting. mgrimanis AT theakaaproject.org

Maryvonne Grisetti recently retired from the World Health Organization headquarters, Geneva, where she was in charge of free dissemination of WHO priced publications worldwide but especially aimed at developing countries.  grisettim AT who.int

habendum@gmail.com

Catherine Kamau is a Registered Nurse from Kenya. She is currently country programmes Coordinator for VSI, Venture Strategies Innovations, a USA non-profit NGO which deals with reproductive health in developing countries. She works closely with the community and her area of interest is maternal and child health; HIV/AIDS delivery; nutrition; and immunisation. She is also pursuing a degree in public health and is passionate on child matters. She is currently not convinced that her country is doing enough to help children understand health issues especially chronic diseases; and there are many orphans who are yet to know of their HIV status. Catherine is also concerned that up to 65% of patients don't know their rights and as such go through a lot of problems in the hands of the so called 'medics'.

Farhtheeba Rahat Khan is a Health Management Specialist from Bangladesh. She coordinated all the HRH development initiatives undertaken by RTM International, a Bangladesh based resource organization. Ms. Khan worked closely with the Ministry of Health and Family Welfare, its directorates and agencies for policy initiatives hindering the HRH development of the country, which ultimately resulted in a massive scale-up of community and mid-level health worker training programs. Joint activities with Governments led to devising rigorous accreditation systems for health worker education and training, complemented by stringent regulatory frameworks. As part of the HRH project, she has undertaken a lot of market assessments, demand-supply analysis and policy gaps to understand the health workforce market dynamics. She is currently the Corporate Partnerships Manager for USAID funded NGO Health Service Delivery Project in Bangladesh where she is working with corporate businesses houses towards mobilizing and ensuring sustainable support for the primary healthcare units under the Project.

Alex Little is Director of Digital Campus, UK. Professional interests: Mobile learning, primary healthcare/maternal care. alex AT digital-campus.org

Kimberley Littlemore is Communications Consultant at Littlefox Communications Ltd, UK. Professional interests: Littlefox Communications is constantly looking for ways to transform communications; we are currently running a service evaluation in an NHS Foundation Trust of an e health platform. We are working with a senior clinician to introduce the on line delivery of film and interactivity to enhance patient care. We are also developing an app to support volunteer community healthworkers in remote villages in the developing world in the battle against malaria. We are looking at ways of strengthening diagnosis, and changing behaviour such that people understand more about prevention, testing and consumption of anti-malarial drugs. I made documentaries for 20+ years at the BBC with a special interest in producing long and short form films for Comic Relief. I still work with Comic Relief and the BBC. In 2009 a film with David Tennant raised £5 million in 5 minutes on Red Nose Day and this year one of the most successful fundraisers was a film I made with Brenda Blethyn. Both films were about malaria. At Littlefox we use observational filming and animation to create intelligent and compelling communications. Businesses are realising that intelligent communications can transform the way that they do business with their customers and clients. It is the same for international development - the right communication with the right understanding of human behaviour can make a huge difference and deliver a significant return on investment. kimberley.littlemore AT littlefoxcommunications.com

Ryan Littman-Quinn is the Mobile Telemedicine Program Manager for the Botswana-UniPenn Partnership, BUP. In addition to managing the mHealth programs he has played a major role in the creation and implementation of several mHealth projects that fulfill needs within the public health care system in Botswana, ranging from remote specialist access, to public health data collection, to mLearning initiatives with the recently founded University of Botswana School of Medicine. Ryan is based in the capital city of Gaborone, but he has extensive mHealth implementation experience.
through Botswana in addition to mHealth consulting experience with the CDC in Kenya. Ryan was recently invited to give an oral presentation, entitled "mHealth in Botswana", at the 2nd International Conference on Mobile Communication Technology for Development (M4D2010) in Kampala, Uganda in November 2010. The presentation focused on two conference posters, titled, "The Use of Mobile (Cellular) Oral Telemedicine in Botswana and Evaluation of txt2MEDLINE & Development of SMS Optimized, Clinical Practice Guidelines. Ryan's work has been presented in 2010 by members of the Botswana mHealth team at conferences all over the world, including the American Telemedicine Association National Meeting in San Antonio, TX, MEDINFO International Informatics Conference in Cape Town, South Africa, mHealth Summit in Washington, D.C., and the American Medical Informatics Association National Meeting, Washington DC. ryanlittmanquinn AT gmail.com

Tracy-Ann Morgan-Smith is Manager of Early Childhood Training and Development at the Early Childhood Commission in Jamaica. Professional interests: Twenty four years experience in early childhood care education and development, working at the national level for the past nine years. Focus has been to ensure access and equity to early childhood care and development, as well as to ensure that services and facilities maintain standards. At a national level, standardized trainings are planned and done with the over 9,000 early childhood practitioners in the sector, new programmes in early childhood are developed and are offered by teacher training institutions and universities. One such new programme is the Associate Degree in early childhood education, which has been offered since 2014. Much of my focus is on facilitating qualification upgrades of early childhood practitioners and to review curricula used by them to implement practice. I am currently coordinating the implementation of online training for the early childhood sector. This is part of a target on the National Strategic Plan for Early Childhood, funded by a loan from the World Bank, which sets out the trajectory for Jamaica’s early childhood development to 2018.

Pascal Mouhouelo is Head Librarian at WHO/AFRO. He is also a trainer for biomedical researchers using the HINARI Access to Research in Health Programme, which offers free or very low cost online access to the major journals in biomedical not-for-profit institutions in developing countries. He is also Coordinator of the African Index Medicus and the lead author of a PLOS Medicine 2006 article “Where There Is No Internet: Delivering Health Information via the Blue Trunk Libraries.” which describes a practical way to address the local absence of internet and contemporary medical textbooks in many African health care settings. Pascal is a member of the HIFA working bgroup on Library and Information Services and is also a HIFA Country representative.

Judie Regis-Findlay trained and qualified as a Paediatric Nurse at St Bartholomew's School of Nursing and Midwifery in 1994 in London, UK. Her first job was at the University College Hospital (London) neonatal unit where she progressed to senior staff nurse. During that time she completed her BSc Hons Degree in neonatal nursing care. She then moved to Great Ormond Street Hospital in October 2003 until December 2006. She is very interested in clinical teaching, particularly working with students and junior staff, in developing their knowledge and skills within the clinical setting. She is also interested in working in developing countries, particularly in a role that involves teaching, development and the passing on of knowledge, skills and experiences to other nurses within neonatal and paediatric care. She is currently completing her MSc in International Child Health at the Centre for International Health and Development, finishing in 2008. She has experience in general surgery, plastic surgery and ENT surgery. She would like to meet and talk with other nurses who would like to
use their knowledge, skills and experience to help our colleagues in the developing world. She is currently not working as a nurse as she would like to finish her studies and also would like to have the opportunity to visit some developing countries in an observatory role or even to do some kind of teaching.  regis701 AT btinternet.com

Anis Rehman works as a Physician at Al Barkat Welfare Medical Center, Pakistan. In recent past, he has done research at Johns Hopkins, USA and Dow University, Pakistan. Harold Robles is Founder and President of the Medical Knowledge Institute, MKI, based in Oostvoorne, Netherlands and Cape Town, South Africa. The Medical Knowledge Institute is an international non-profit health organization dedicated to 'Prevention through Education'. MKI strongly believes that healthcare is a human right and has therefore developed several educational programs which are executed in developing countries. The objective is to improve the living conditions of the population by giving health related education and information to local aid workers and the local people. In their turn these local heroes pass on that knowledge to other local
aid workers and trainers. Healthcare experts from all around the world are engaged for this. The funds to be able to perform this important work are mainly received through donations. The sale of an exclusive series of jewellery by means of the YOELL® project initiated by MKI also contributes to MKI's success. This jewellery is handmade by HIV-infected and affected women in South Africa: www.yoell.com. MKI was founded in 1999 by Prof. Dr. Harold E Robles, Founder and President Emeritus of the Albert Schweitzer Institute for the Humanities. More information about the activities, projects, workshops and events of the MKI: www.mkifoundation.com hrobles AT mkifoundation.com

Professional interests: Indian Toilet Association is a newly started Section 8 non-profit company in India and aims to initially work on the much-needed Sanitation Supply Chain and in infusing toilet related education in schools. Eventually, we look forward to taking up many aspects of toilets in India. We realize the fact that the challenges in India are far more than the ones abroad but nevertheless, the existence of an Association in a format that suits Indian conditions will surely go a long way in achieving our countries ODF goals as well as to sustain the standards of toilets for many more years, after 2019 too. udayshankar.ita@gmail.com

Karen Shashok is a Translator - Editorial Consultant with AuthorAID in the Eastern Mediterranean. She is based in Spain and her professional interests are: Research publishing, scientific-technical-medical editing and translation, research from developing countries and emerging research communities, levelling the playing field of publication for resource-limited researchers.  kshashok AT kshashok.com

Daniel Shaw is a Technical Officer within the Human Resource for Health department at WHO headquarters, Geneva, currently working on health workforce migration and retention. He was formerly Managing Editor of Human Resources for Health Journal (www.human-resources-health.com) and has also worked on public health education, training and leadership issues within WHO.  shawd AT who.int
Shajedur Rahman Shawon is an Intern Doctor at Dhaka Medical College, Bangladesh. Professional interests: Public health, Maternal and Child Health, Climate change and health, Evidence based healthcare. shawon.fcc.dmc AT gmail.com

Sasha Shepperd is a Research Scientist in Evidence Synthesis, University of Oxford, Department of Public Health, Oxford, UK. Her research areas of interest are systematic reviews of complex interventions with a focus on external validity and the development of the DISCERN guidelines which provide a mechanism for involving patients in decisions about their health, make explicit information gaps and facilitate the use of available resources. The DISCERN guidelines were developed using qualitative methods to identify the views of a wide range of users of information (including lay users) and quantitative methods to test the reliability of the quality criteria, and are freely available from - www.discern.org.uk and www.discern-genetics.org Sasha.Shepperd AT dphpc.ox.ac.uk

Tei Sheraton is a Consultant Anaesthetist in Royal Gwent Hospital in Newport, Wales, UK. Tei is involved with a charity called Mothers of Africa who provide education for anaesthetists in sub-Saharan Africa with a particular interest in reducing maternal mortality. Mothers of Africa are currently developing a national curriculum for anaesthetists in Liberia, with intention to develop e learning tools alongside. http://mothersofafrica.org/ tei.sheraton AT ntlworld.com

Jessica Sheringham works as a Volunteer on the peoples-uni website, providing online Public Health education for people in low-income countries. She is based in the UK. jsheringham2004 AT yahoo.co.uk

Andre Shongo works with Programme Integre de Sante de Reproduction et Familiale (Integrated Program of Health of Reproduction and Family)-PISRF. He is a doctor, reproductive health provider and health communicator for the population. The Democratic republic of Congo is one of the few in Africa on progress towards the MDGs. It has been a slump for over a decade due to social instability, then as post-conflict country, the reconstruction program does not start at all, including health. Andre believes that for a large country like DR Congo, located in the heart of Africa and sharing borders with nine countries, it is not significant to leave entire groups of people in ignorance of a global approach. The priority is to raise awareness on the MDGs, especially MDG 4, 5 and 6, information, education and communication on the health of both beneficiaries and suppliers in the Democratic Republic of Congo. pisrfrdc AT yahoo.fr

Tim Shorten is Programme Director of Responsible Action, UK. Professional interests include Health Systems strengthening, aid effectiveness, and accountability mechanisms. tim AT human-scale.net

Emily's professional interests include international child health, leadership, management and staff training. emilyspry AT gmail.com
Vasumathi Sriganesh was a medical librarian in the 1990s. In the year 2007 she set up a Not-for-profit Trust, which she has named QMed Knowledge Foundation. Along with her colleagues in QMed she regularly conducts workshops in literature searching and reference management, as these skills have never been prioritized in medical education in India. She is also a regular faculty on these topics, in Research Methodology workshops all over the country. She guides systematic reviewers in India with their literature searches as there is a dearth of such experts in the country. She hopes that the Foundation’s activity will help the current generation of students value the need for an effective search as a component of the practice of Evidence Based Medicine.
