

8-14 July 2026

A global discussion: Preventing stillbirths and infant harm worldwide

Group B Strep (GBS)

A CHIFA Spotlight in partnership with Group B Strep International

More than 3,600 child health professionals worldwide will have the chance to explore the following questions:

1. What is your personal and professional experience of GBS disease?
2. What is the situation in your country?
3. What can be done to reduce the burden of GBS disease?
4. What do parents need to know about GBS disease?
5. What do health workers need to know about GBS disease?
6. What are the common myths about GBS disease?
