

Together we can stop people dying due to lack of basic healthcare information

Support the HIFA appeal

“HIFA demonstrates extraordinary efficiency with so much being done with so few resources”

Hugh Goyder, International Development Expert

The HIFA vision:

A world where every person and every health worker has access to the healthcare information they need to protect their own health and the health of others

Think global, act local

Based locally in Charlbury, HIFA is run from a small office at the Corner House by Dr Neil Pakenham-Walsh MB,BS.

www.hifa.org

People are dying for lack of basic healthcare information

Example:

4 in 10 mothers in India believe they should *withhold* fluids if their child has diarrhoea. This false belief contributes to 1000 child deaths from dehydration in India *every day*.

Lack of healthcare information contributes to tens of thousands of deaths every day worldwide, across *all* areas of health care.

What does HIFA do?

HIFA is a unique global health network facilitating access to reliable healthcare information for health professionals, policymakers and the general public.

How you can help

- ▶ Financially with a single donation or by monthly direct debit – visit www.hifa.org/support/donate
- ▶ Become a HIFA volunteer and support us with practical help – email neil@hifa.org

Healthcare Information for All
